

Presses for Dehydration and Alcoholization of Nitrocellulose

Basic Technical Specifications:

Parameter:	PDA 350	PDA 450
Application: Dehydration and alcoholization of nitrocellulose		
Pressing force F [kN]	max 3500	max 4500
Pressing pressure [bar]	max 280	max 280
Vessel diameter ØA [mm]	400	450
Working vessel volume [dcm³]	115	145
Installed power [KW]	35	46
